## First Aid Policy

### Aims:

The aims of our first aid policy are to ensure the health and safety of all staff, pupils and visitors, and ensure Governors are aware of their responsibilities with regards to health and safety. It also provides a framework for responding to an incident and recording and reporting the outcomes.

### Legislation & Guidance:

This policy is based on the Statutory Framework for the Early Years Foundation Stage and Early years foundation stage: coronavirus disapplications guidance, advice from the Department for Education on first aid in schools, health and safety in schools and actions for schools during the coronavirus outbreak, and the following legislation:

- The Health and Safety (First Aid) Regulations 1981, which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- The Management of Health and Safety at Work Regulations 1992, which require employers to assess the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013, which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- Social Security (Claims and Payments) Regulations 1979, which set out rules on the retention of accident records
- The School Premises (England) Regulations 2012, which require that suitable space is provided to cater for the medical and therapy needs of pupils.

### Roles & Responsibilities:

We have several members of staff in all areas that are paediatric first aid trained and their certificates are displayed.

## **Appointed Person(s) and First Aiders:**

The school's appointed first aiders are named on the attached sheet. They are responsible for:

- Taking charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Ensuring that an ambulance or other professional medical help is summoned when appropriate
- First aiders are trained and qualified to carry out the role and are responsible for:
- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment

## **First Aid Procedures:**

### **In-school procedures**

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents
- If emergency services are called, a member of the office staff will contact parents immediately
- The first aider will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury

There will be at least 1 person who has a current paediatric first aid (PFA) certificate on the premises at all times.

### **Off-site procedures**

When taking pupils off the school premises, staff will ensure they always have the following:

- A school mobile phone
- A portable equipped first aid kit

- Information about the specific medical needs of pupils
- Parents' contact details

Risk assessments will be completed by the relevant person prior to any educational visit that necessitates taking pupils off school premises.

There will always be at least 1 first aider with a current paediatric first aid (PFA) certificate on school trips and visits, as required by the statutory framework for the Early Years Foundation Stage.

First aid kits are stored in the first aid cupboard in the activity area. Further supplies to replenish stocks are in the corridor cupboard. A small number of plasters and wipes are kept in the classrooms and are held by the Caretaker and the Welfare staff. The Kitchen has a supply of their own first aid items, as does Funda.

## **Record Keeping & Reporting**

First aid and accident record book

- An accident form will be completed by the first aider on the same day or as soon as possible after an incident resulting in an injury
- As much detail as possible should be supplied when reporting an accident, including all of the information included in the accident form at appendix 2
- Records held in the first aid and accident book will be retained by the school for a minimum of 3 years, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, and then securely disposed of.

## **Reporting to the HSE**

The School Business Manager will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The School Business Manager will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:
  - Fractures, other than to fingers, thumbs and toes
  - Amputations
  - Any injury likely to lead to permanent loss of sight or reduction in sight
  - Any crush injury to the head or torso causing damage to the brain or internal organs
  - Serious burns (including scalding)

Any scalding requiring hospital treatment

Any loss of consciousness caused by head injury or asphyxia

Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours

- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:

The collapse or failure of load-bearing parts of lifts and lifting equipment

The accidental release of a biological agent likely to cause severe human illness

The accidental release or escape of any substance that may cause a serious injury or damage to health

An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here:

[How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)

<http://www.hse.gov.uk/riddor/report.htm>

### **Notifying Parents:**

The member of staff involved with the incident will inform parents of any accident or injury sustained by a pupil, and any first aid treatment given, on the same day, or as soon as reasonably practicable. In the event of a bumped head, parents are required to sign a letter to acknowledge the event.

### **Report to Ofsted and Child Protection Agencies:**

The Head Teacher will notify Ofsted of any serious accident, illness or injury to, or death of, a pupil while in the school's care. This will happen as soon as is reasonably practicable, and no later than 14 days after the incident.

The Head Teacher will also notify the local child protection agencies of any serious accident or injury to, or the death of, a pupil while in the school's care.

### **Training:**

All school staff are able to undertake first aid training if they would like to.

All first aiders must have completed a training course, and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until (see appendix 3).

Staff are encouraged to renew their first aid training when it is no longer valid.

At all times, at least 1 staff member will have a current paediatric first aid (PFA) certificate which meets the requirements set out in the Early Years Foundation Stage statutory framework and is updated at least every 3 years.
