4th March 2024

Dear parent/ guardian,

Science Week 8th – 17th March

We are celebrating British Science Week in school. This year's theme is 'Time.'

Time is key to so many discoveries in science, technology, engineering and maths. Evolution looks at how plants and animals changed over a long period of time, the Earth's movements show us why we have seasons and different time zones. The study of all the celestial bodies in our universe are centred around time. 'Time' is fascinating!

As part of our Science Week activities, the Eco-committee will be asking you to take part in the Big Plastic Count – look out for further information coming home about this.

Why not support Science Week by completing some activities at home? There is a range of science-based home activities requiring few resources in the CREST home learning collection:

<https://collectionslibrary.crestawards.org/superstar-home-learning/63241423>

Have fun!

With best wishes,

Mrs Joanne B. Heap

Headteacher
